

MICROGREENS

Microgreens grow very quickly.
Your microgreens will be ready to eat
in 2 weeks.

They will look a bit like this

Keep your egg box **CLOSED**
for 2 days and put on a
windowsill

After 2 days, **OPEN** your egg box

Your microgreens will look a bit like this

Keep your egg box open so your microgreens
can get lots of sunshine

Give your microgreens a little water every day.

Soon your microgreens will look like this. You
can cut them and eat them.
